# Show Stopper

Unlike most overdecorated showhomes, I found this one in Oakville, Ont. — the grand prize of the 2009 Princess Margaret Welcome Home Sweepstakes — to be decidedly compelling. Instead of the predictably overstuffed fancy rooms, this house was an unconventional take on comfort. I wasn't surprised to hear that its modern farmhouse look had been controversial, and that most of the 50,000 people who toured the \$3.5 million house last fall walked out with a strong opinion. That's a good thing: Unlike other showhouses, people cared about this one. So much so that they opened their wallets in the midst of a recession and bought every last ticket for a chance to win. Love it or hate it, the house helped raise over \$6 million for cancer research.

Indeed, the minute I saw it, I realized it was a trendsetter. And sure enough, the sophisticated farmhouse look has caught on with leading retailers and designers. "I was inspired by farmhouses in France and Belgium," explains the home's principal designer, Lynda Reeves. "They're fascinating because they have the warmth associated with our farmhouses but with a sparer, architectural discipline. Less rustic. No visual clutter." It's a contemporary approach without being too minimal, a style that is appealing to our modern tastes.

"Lynda had a vision," says residential designer Ray Murakami, who designed the building and detailed the exterior. "That clarity helped us get the house done on time, from concept in December 2008 to completion of construction in June 2009,"

SMART HOME

#### COMMAND CENTRE

The showhouse was equipped with a TriVista Control4 system (operable by various remotes, touchscreens and iPods throughout the house, or via the Internet) that provides:

- Centralized multi-room music
- One-Touch home theatre
- Programmable Smart thermostat
- Remote-access safety and security options
- Smart lighting

Lynda's favourite room is the farm-style kitchen. The open dining/work table keeps the feeling of this room light and airy. The oiled-oak piece has a practical honed CaesarStone top. A custom breakfront (right) holds House & Home whiteware and serving dishes; a custom plate rack by the sink stores everyday dishes; and the Sub-Zero fridge (left) tucks neatly into a wall of cupboards. The mauve and charcoal vintage runner was a lucky find at Elte.
